**Press-Fit® and XPress-Fit® Gelcaps allows you to differentiate your product by offering full branding flexibility.**

*Capsugel's proprietary technology allows you to enrobe caplets with high-gloss gelatin covers to create a unique brand identity.*

## Our offer

## Press-Fit® and XPress-Fit® Gelcaps

- High compatibility with a broad range of tablet formulations
- Full branding flexibility
- Patient friendly- easy to swallow, no after taste
- Perfect for line extensions

### **Promotes Brand Differentiation**

*Capsugel's proprietary Press-Fit® and XPress-Fit® Gelcaps technology is difficult to mimic and enables brands to create a new look for their product with minimal effort and without having to reformulate their product. The result is a product that stands out to both consumers and patients.*

### **Manufacturing Flexibility**

*Unlike competing gel-enrobed technologies, Capsugel® Press-Fit® and XPress-Fit® Gelcaps can be easily manufactured in house without prohibitive investment, or can be outsourced. We work with leading manufacturers of capsule filling machines to help you implement a robust process that is easy to install and operate without additional sealing. Capsugel® has a proven track record of seamless technical transfer to manufacturing locations globally.*
